**Honoring Women  
Worldwide Mission:**

Mobilizing, inspiring, and honoring women and families from all cultures to lead and succeed.

Join us as we **explore the authentic conversations** that leaders must have with employees **to manage through tough economic times.**

Our esteemed panel will **share some of the fears and concerns** they have and must work through before initiating these difficult dialogues. They'll also **identify ways they prepare themselves to deliver tough messages** while choosing to lead from their hearts.

Delving into the process of making difficult decisions can offer all of us the **opportunity to think and behave in new ways.**

- ▶ You'll hear how others **navigate through these economic challenges** and choose to **express compassion, remain engaged and demonstrate humanity** in times of uncertainty and change.
- ▶ In small groups, you'll have the opportunity to **discuss your own tough challenges**, how you're managing through them, and share ways that you are leading from your heart in the process.

**You'll leave with new strategies and ideas** for engaging in authentic conversations **while staying in your heart.** You'll also leave **energized and prepared** to make a difference for yourself and others.
